

## **Topic: Innovations in Health Care**

**Date:** Thursday, October 11, 2018 (full day)

**Location:** Sheppard Pratt Conference Center located at 6501 N. Charles Street, Towson, Maryland 21204.

**Description:** The demand for higher quality healthcare at a lower cost creates an imminent need for change and innovation in healthcare delivery. Healthcare has already seen innovations in the tools used to deliver care, including pharmacy products, medical devices, information technology, and biotechnology products. This innovation has changed and continues to change the way healthcare is delivered. This panel will discuss how health systems are using innovation in care delivery design, technology, and patient experience to improve the value of the healthcare they deliver. One of the panels will discuss how innovations have improved the care delivery in rural markets.

### **AGENDA**
