

Randy Komenski, FACHE, MBA, CPA, CIA, SSBB, Administrator, Medicine - JHBMC

Randy is a goal oriented, results driven leader with over 15 years of healthcare operations and financial experience. His diverse background in process improvement (Six Sigma and Lean), business development and planning as well as operational experience offers a multi-dimensional approach to improving healthcare. His experience encompasses service line development, customer satisfaction, emergency department operations, internal auditing and process improvement. Randy has engaged and collaborated with the medical staff by fostering relationships and facilitating their partnership with administration to make his facility a better place to practice medicine.

Randy currently serves as the Director of Operations within the Department of Medicine at Johns Hopkins Bayview Medical Center. He supports clinical leadership across the twelve divisions within the Department of Medicine. In this role he supports clinical redesign, population health and serves as a liaison to Johns Hopkins Bayview Medical Center. Randy has been very active in professional organizations. He completed a three-year term as the American College of Healthcare Executives Regent for Maryland and was Immediate Past President of the Maryland Chapter of the American College of Health Care Executives and continues to actively serve on the board. He also has been a recipient of the American College of Healthcare Executives Regent's Award.
